

SOLID EXIT EMERGENCY EXIT LIGHTS

Solid is our emergency light and exit light product family, with an IP65 protection rating, specially developed for demanding conditions.

Fast and easy installation has been emphasized in its design. The luminaire is dust-proof and water resistant, and therefore suitable for e.g. in industrial buildings, parking halls and other damp or dusty conditions, as well as outdoors. Wall mounted, single sided Solid Exit lights are equipped with easy-to-change pictograms, with a 30 m viewing distance.

The product line also has exit lights with a downlight function, which are suitable for installation e.g. above doors, as well as exit lights for ceiling mounting, with a double sided pictogram. Solid emergency lights have been optimized for various installation heights, for illuminating open areas, as well as exit routes.
